

Save money with the all-in-one POTS replacement solution.

Government entities can migrate from copper-based phone lines to an intelligent solution that runs on a hassle-free wireless network.

Ooma has partnered with Carahsoft Technology Corp., the trusted government IT solutions provider. This partnership enables government agencies and educational institutions to easily purchase Ooma AirDial® through Carahsoft's contracts including OMNIA, NASP, ITES, SEWP and more.

Ooma AirDial allows you to retain your critical systems and is ideal for:

Security Alarm Panels

Building Entry Phones

Fire Alarm Panels

Essential Phone Lines

Elevator Phones

Fax Machines

Public Safety Phones

Backup Phone Service

All-inclusive solution

- Solve all POTS challenges with one provider - hardware, data, and phone service with no monthly rate "surprises".

Tremendous value

- Save money on monthly phone bills.

Compliance

- Built with the applicable guidelines of UL, NFPA 72, California Fire Marshal, New York City Fire Department and ASME A17.1B in mind.

Simple migration

- Provides a quick, easy migration and organizations can keep using existing systems.

DIY or turnkey installation

- Deploy yourself; or receive end-to-end project management from assessment to installation and support.

Flexible deployment options

- Configure to provide LTE failover for mission critical VoIP lines.

Remotely managed

- Get automatic software updates and system monitoring.

Increase visibility

- Manage all locations and devices using intuitive web portal. Get SMS and email alerts when specified numbers are dialed, should outages occur or when the backup battery needs charging.

Failover Protection

- MultiPath technology sends all voice traffic over both the LTE and wired Ethernet links simultaneously to avoid service interruptions; backup battery maintains service for 16 hours which can be extended to more than 24 hours using an optional external battery accessory.

CP Group, a vertically integrated commercial real estate and management firm, is the largest office landlord in Florida and among the top 25 in the United States. Their portfolio includes the Boca Raton Innovation Campus, the largest single office facility in Florida at 1.7 million square feet.

The Challenge

For the many elevators spread across the Boca Raton Innovation Campus, POTS lines were becoming more expensive and less reliable. Also, construction of additional facilities was about to knock out a wiring room where many POTS lines terminated.

The Solution

CP Group is using 14 Ooma AirDial units to provide connections for 17 elevators. CP Group is benefiting by experiencing a 50% cost reduction by switching to AirDial from traditional POTS service.

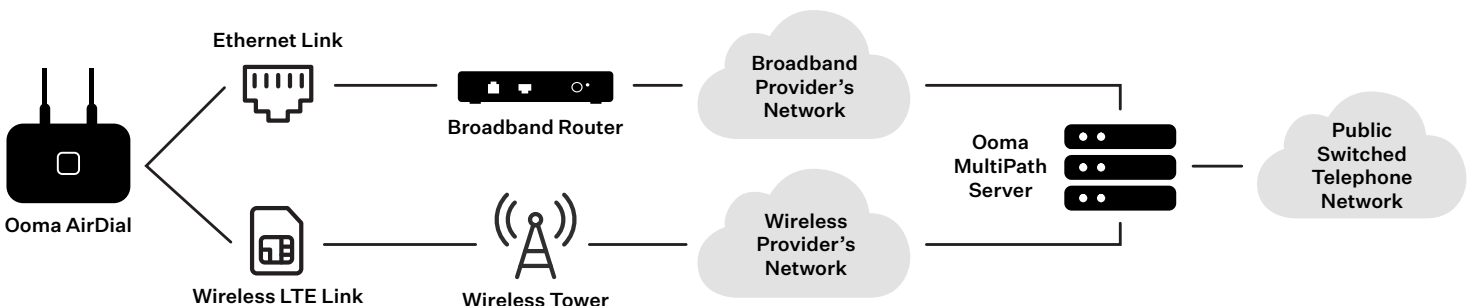

“I’ve received calls from other property managers and I’ve highly recommended Ooma AirDial for their facilities.”

Greg Yuskanich, Project Manager, CP Group

The Ultimate in High Availability

Ooma’s MultiPath transport technology routes all voice traffic over both the LTE and wired ethernet networks simultaneously to avoid service disruptions.

Ooma AirDial – Remote Device Management and Notification Tool

With Ooma AirDial's Remote Device Management web portal you have complete visibility into all systems in one location. Instantly see service status, LTE signal strength, battery life and more across all Ooma AirDial devices and locations.

Generate event notifications.

A notification can be received via SMS text message or email. You choose which type of notification is generated for each event, and you can add multiple recipients for each notification type.

Notification events include:

- Device In-Service
- Device Out-of-Service
- Battery Activated
- Battery Low
- Device on AC Power

Role-based access capabilities empower account owners to give other users permissions such as Administrator, Editor, or User, without sharing login credentials.

Ooma AirDial Specifications

| | |
|---|---|
| Processor | Dual-core ARM Cortex A9 CPU |
| Modem | Quectel EG95-NAXD; Cat-4 LTE |
| LTE Band Support | B2/B4/B5/B12/B13/B25/B26 |
| LTE Data Rates | Up to 150 Mbps down and 50 Mbps up |
| Antennas | Two wideband 5G/4G terminal mount antennas, hinged 90° termination with SMA(M) connector |
| SIMs | Dual micro-SIM; multicarrier e-SIM support |
| Telephony | Four RJ-11 analog FXS ports; 55Vrms Low Power Ringing |
| MultiPath | Routes all voice traffic over both the LTE and wired Ethernet links simultaneously to avoid service interruptions |
| Managed Facilities Voice Network (MFVN) | MFVN compliant network, when needed, ensures traffic never crosses the public internet. |
| Ethernet | One RJ-45 10/100/1000 Ethernet WAN port; One RJ-45 10/100/1000 Ethernet LAN port |
| Power | AC-DC Adapter w/ MicroFit+ connector; Input 100-240 VAC 50-60Hz, Output: 12VDC/3A 36W |
| Battery Backup | Replaceable battery pack 3S3P Li-ion battery: 10.95V, 3A; Capacity 85.4 Wh (7.8 Ah) provides 16 hours of standby time which can be extended to > 24 hours with an optional external battery accessory |
| Display | 320x240 LCD display |
| Switches | Master On/Off; Factory reset (recessed) |
| Dimensions | W 30cm x H 6cm x D 20cm when sitting horizontally |
| Line and Battery Status | Monitoring notifications via SMS and email alerts |
| Administration | Web-based management portal |
| Operating Temperature | 0 - 40° C |
| Warranty | 1 Year limited warranty |
